

Senior gis analyst

Johannesburg, South Africa

Salary: R420 000

Recruiter: The Recruiters

Job Ref: Jen22

Financial Services company in Midrand seeks Snr GIS Analyst

The purpose of this role is to contribute (through Spatial and non-spatial data compilation and analysis) to ensuring that the spatial data is used tactically and strategically throughout relevant business areas for better decision making.

Minimum 2 years relevant working experience relating to Geo-Spatial Queries

Experience in the extraction and compilation of “moving” data

To do:

1. Collection and management of internal and external spatial data
2. Extraction, reporting and analysis on spatial/non-spatial data for enhanced decision making.
3. Support other functions within team
4. Effective teamwork and self-management
